**RESOLUTION NO. 420-2022
DESIGNATION OF LEAD AGENCY AND ADOPTION OF FINDINGS AND
NEGATIVE DECLARATION OF SIGNIFICANCE FOR
THE ONTARIO COUNTY LAKE SHORE PARKS MASTER PLAN**

WHEREAS, The Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks (has been prepared which identifies improvements to each park that expand public access to Canandaigua Lake and increase accessibility to persons of all abilities, a copy of which is on file with the Clerk of this Board; and

WHEREAS, The adoption and implementation of said Master Plan is classified as an unlisted action subject to review pursuant to the New York State Environmental Quality Review Act and its implementing regulations found at 6 NYCRR Part 617 (hereinafter collectively referred to as 'SEQR'); and

WHEREAS, Pursuant to Resolution No. 433-2019, a Full Environmental Assessment Form Part 1 for each park was circulated to all involved agencies along with this Board's desire to act as lead agency in the environmental review of the Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks pursuant to SEQR; and

WHEREAS, No involved agency responded objecting to this Board being designated as lead agency for said environmental review; and

WHEREAS, During the preparation of said Master Plan, Ontario County conducted an extensive outreach effort that is documented in Appendix A Community Input of said Master Plan which included establishing a Project Advisory Committee involving local representatives, holding of three interactive public meetings, and conducting an online survey; and

WHEREAS, Pursuant to Resolution No. 101-2022, Ontario County accepted a \$500,000 grant from the New York State Environmental Protection Fund to implement said Master Plan's recommended improvements to Ontario County Beach Park including a kayak launch, fishing/viewing deck, renovated restrooms, walkways that interconnect all facilities and do not require persons in vehicles to cross the travel lane to get the facilities, interpretive and directional signage, benches and picnic tables all accessible to

persons of all abilities including and extensive use of green infrastructure, reversing the current entrance and exits, and reorienting the parking spaces to face the lake; and

WHEREAS, The Ontario County Planning Department has prepared and completed a draft Part 2 and 3 of the Environmental Assessment Form which, along with Part 1, is on file with the Clerk of this Board; and

WHEREAS, The Public Works Committee and the Planning and Environmental Quality Committee recommends adoption of this resolution; now, therefore, be it

RESOLVED, That this Board is hereby established as lead agency for the environmental review of the adoption of the Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks and the implementation of said Plan at Ontario Beach Park pursuant to SEQR; and further

RESOLVED, That this Board, having reviewed and duly considered the Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks document, public input received during the development of said Master Plan, the lack of comments received from involved and interested agencies, and any and all documents and materials it considered reasonable and necessary to assess potential environmental impacts that may be associated with adoption of said Master Plan and implementation thereof at Ontario County Beach Park, hereby makes the following findings:

1) Significant public outreach occurred with neighbors, park users, the general public, and the Town of Gorham during the development of said Master Plan, and indeed the final concept plans within said document reflect modifications made to address concerns raised by the various participants and the public.

2) Improvements to Ontario Beach Park will increase park usage and associated vehicular turning movements from and onto State Rt 364 to a limited extent that is not expected to significantly increase traffic on State Rt 364.

3) The reversal of the 'in' and 'out' directions of the driveways at Ontario Beach Park and relocation of what will become the park entry was developed in consultation with New York State Department of Transportation Region 4 staff and will increase site lines from the park entrance and thus have a positive impact on safety.

4) The parking bays/spaces will be reoriented to face the lake which will improve year-round enjoyment of the view and eliminating visitors from having to cross the parking lot travel lane to access the park. Viewing the lake was the primary reason respondents gave for visiting the park (attendees at the public meetings and 67% of survey respondents) during preparation of the park master plan.

5) The proposed improvements at Ontario Beach Park will not obstruct views of the public from State Rt 364 toward Canandaigua Lake nor from adjacent properties as the kayak launch is nearly at lake level with State Rt 364 and adjacent properties being well above lake level and moving the parking spaces within the park places them somewhat down slope from their existing location.

6) Increase runoff during construction which will be mitigated by stormwater management practices. Green infrastructure practices will be used to minimize any adverse impacts to water quality; and further

RESOLVED, This Board hereby approves the Full Environmental Assessment Form parts 1, 2, and 3 on file with the Clerk of this Board in regard to the environmental review of the Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks and the implementation thereof at Ontario Beach Park; and further

RESOLVED, Based on these findings, this Board hereby determines that the adoption of the Ontario County Lake Shore Parks Master Plan: Deep Run and Ontario Beach Parks and its implementation at Ontario Beach park will not have any significant negative environmental impacts; and further

RESOLVED, That the County Administrator be and hereby is authorized and empowered to:

1) complete Part 3 of the Full Environmental Assessment Form by checking the box "A" indicating the proposed action will not result in any significant negative environmental impacts and an Environmental Impact Statement will not be prepared.

2) Sign and date Part 3 of said Full Environmental Assessment Form on behalf of the County of Ontario; and further

RESOLVED, That the Clerk of this Board send certified copies of this resolution and said Full Environmental Assessment Form to the Commissioner of the New York State Department of Environmental Conservation, the Region 8 Office of the Department of Environmental Conservation and the Commissioner of the New York State Office of Parks, Recreation and Historic Preservation, and the Town of Gorham as involved and/or interested agencies.
